EXPERIENCE

Staffinc Group — Frontend Chapter Lead / Squad Lead

May 2024 – Present

- Led **6 engineers**, mentored 2 FE members, enforced documentation & async communication.
- Defined **API contracts**, architecture boundaries, and design system components.
- Modernized codebase (Next.js **10** → **11**), removed deprecated patterns, improved build & DX.
- Reduced defects from **~70% → 10–15%** via SDD, quality gates, and coding standards.
- Improved Codacy grade **C → B** by resolving critical issues and refactoring modules.
- Used AI for requirement analysis, architecture drafts, task breakdowns → **30–50% faster** development and deeper edge-case testing.

Edulab — Frontend Engineer (Part-Time, Remote)

Aug 2025 – Feb 2026

- Refactored LMS architecture for readability, scalability, and consistent patterns.
- Helped team adopt proper SDLC and AI-supported development workflows.

Tribe Fintech — Frontend / Fullstack Engineer (Part-Time, Remote)

Jun 2023 – Mar 2025

SKILLS

Frontend: React, Next.js, TypeScript, Tailwind, Chakra UI, Ant Design

Backend: Node.js, Go, Express, REST APIs

Architecture: DDD, modular systems, API contracts, design systems, monorepos

AI-Augmented SWE: Architecture generation, requirement analysis, task automation, pseudo-code workflows

Tools: Git, Codacy, Docker (basic), CI/CD, Jira

LANGUAGES

Indonesian (Native) • English (B2 Advanced) • Korean (Basic)

- Built AI-enhanced SME tools (React, Next.js, Tailwind, OpenAI API).
- Reorganized FE into **DDD-based modules**, reducing onboarding complexity.
- Delivered responsive features and collaborated on API boundary refinement.

Staffinc Group — Frontend Engineer

Apr 2020 – May 2024

- Built recruitment/admin portals using Next.js and modern UI frameworks.
- Created **design system + monorepo** for cross-team component reuse.
- Led migration from **Atomic Design** → **Domain-Driven Design**.
- Introduced unit testing practices for long-term maintainability.

OTHER ROLES

- **Kampus Merdeka — Frontend Engineer (2022–2023)**: Government edtech apps, accessibility-focused.
- **Binar Academy — FE Facilitator (2022)**: Mentored students, delivered live code reviews.
- **99Group — FE Engineer (2022)**: Reusable component development, remote environment troubleshooting.
- **Smooets — Team Lead / FE Engineer (2018–2020)**: Led 4 projects; delivered Vue/Angular apps for Sinarmas & BCA.

EDUCATION

Bandung State Polytechnic — Informatics Engineering (A.D.), 2015–2018
